

# MILOS KOCIC

## FRONTEND WEB DEVELOPER

### ABOUT ME

I'm a dedicated Frontend Developer focused on creating fast, modern, and user-friendly websites. With strong experience in WordPress and a passion for clean, efficient UI, I love turning ideas into functional digital products. I'm always learning new tools, improving my workflow, and delivering solutions that combine performance, clarity, and great user experience.

### EXPERIENCE

**WordPress Developer** *2022 – Present*  
**Freelance** *Part-Time*

As a WordPress Developer, I designed and built custom websites, ensuring optimal user experience and functionality. I worked on eCommerce solutions using WooCommerce, integrating themes and plugins tailored to client needs. Additionally, I managed hosting, domains, and maintained site security and SEO optimization.

**ECU Programmer** *2025 – Present*  
**Nituning** *Full-Time*

As an ECU/TCU Programmer, I performed vehicle remapping to enhance engine and transmission performance. I optimized control unit files using professional tuning software, ensuring improved power delivery, efficiency, and drivability. Additionally, I conducted diagnostics and troubleshooting of electronic systems to identify issues, refine calibrations, and maintain overall vehicle reliability.

**Production Operator** *2023 - 2025*  
**Integrated Micro-Electronics Nis** *Full-Time*

I work on the SMT line, performing tasks according to company regulations and adhering to work instructions and documentation. I actively participate in training to improve skills and share knowledge with fellow operators. Maintaining high standards and efficiency is my priority.

**WordPress Developer** *2020 – 2021*  
**Jakov Smart Solutions** *Full-Time*

I managed database administration and developed websites using Bootstrap, WordPress, HTML5, JavaScript, and CSS3. I was responsible for designing and building online stores with WooCommerce. My role focused on creating functional, user-friendly websites.

**Digital Marketing** *2016 – 2018*  
**MaxBounty** *Part-Time*

I communicated directly with clients and users to understand their needs and provide solutions. I managed marketing campaigns on social networks such as Facebook, Instagram, and Google Ads. I also focused on Search Engine Optimization (SEO) to improve website visibility and rankings.
